INDIAN STRIKE RESULTS IN BLOODSHED

ONE KILLED,
THAT WOUNDED,
ONE MORTALLY

Special Police Officers Fire
Into Crowd Which Tried
to Stop Wagon.

TAKEN INTO CUSTODY
AFTER THE SHOOTING

Mayor Disperses Parade
Which Teamsters and Chauffeurs Had Arranged.

Indianapolis, Ind., Dec. 2.—Claude Lewis, a negro, aged 19, was killed and three others were wounded in a shooting this afternoon when six special police officers riding on an iron wagon shot into a crowd which tried to stop the wagon on Indiana avenue. The special officers were taken to the police station but it was said they would be released as soon as they made statements.

Mayor Wallace ordered the police today to disperse a parade which was proposed by the teamsters and chauffeurs who are on strike. The police kept the crowd about a half hour, but the men moved and did not give the men a chance to start a demonstration.

As additional help to the police in preventing the parade one of the five departmental large automobiles was loaded with policemen armed with riot guns.

The machine was run through the downtown streets, scattering pedestrians right and left. The wholesalers, who refused to let their wagons on the streets yesterday, sent out a number of loads of goods and freight depots and outlying stores. The department stores, however, refused to make deliveries.

The teamsters continued their programme of yesterday harassing wagon drivers at every opportunity.

It was reported today that the Central Labor Union committee had requested T. J. Farrell, general organizer of the teamsters union, to permit teamsters whose employers had signed the union contract to return to work. Farrell, however, said he would hold out until \$500 strikers could return under union conditions.

**DEFAMES CHARACTER
AND PAYS \$500 DAMAGES**

Arthur Groulx Does Not Defend Case and Judge Gives Judgment Against Him.

Alto, Tex., Dec. 2.—Ten persons were awarded \$500 damages this morning in the supreme court by Mr. Justice Walsh. The defendant, Arthur Groulx, did not appear when the case was called this morning, so his lordship awarded the plaintiff the sum of \$500 damages for a statement that is alleged to have been made by Groulx which reflected on his character and injured his reputation.

**UNION IS CALLED
LABOR MONOPOLY**

Indictments Returned Against Officers of the United Mine Workers.

Pueblo, Colo., Dec. 2.—An attempt to create a monopoly of labor is charged in indictments returned by the grand jury here yesterday against national officers of the United Mine Workers of America. The men named are: P. W. Walsh, president; Frank J. Hayes, vice-president; and Wm. Green, secretary. The charges are conspiracy in restraint of interstate commerce in violation of the federal anti-trust law is charged in indictments against officers of the United Mine Workers of America as follows:

Frank J. Hayes, John B. Lawson, Adolph Green, Albert Allen, A. B. McNeil, John Morgan, Chas. Bates and Edgar Wallace. Several other indictments were returned against miners for alleged obstruction against property.

"WINNIFRED" O'BRIEN RETIRES.
London, Dec. 2.—"Winnifred" O'Brien, light-weight, is a very poor performer, retired in the twelfth round from Jim Dredy, of Lillingston.

**FATAL FIGHT OCCURS
AMONG STRIKE BREAKERS**
One Man Likely to Die And Another Badly Wounded—Attacked With Knives.

Vancouver, Dec. 2.—As the result of a fight which occurred Sunday afternoon amongst strike breakers at South Wellington, on Vancouver Island, two men were shot and one so badly wounded that he is likely to die. A third, T. Napole, was arrested at noon yesterday, charged with the shooting. He was lodged in Nanaimo jail, and declares that he acted only in self defence after he had been attacked by the two other men who were armed with knives. What caused the quarrel is not known.

A. Metten is the most seriously wounded. A bullet entered his body just under the heart and is now lodged in his back. B. Tule was shot in the leg. Both men are now in Nanaimo hospital. After the shooting Napole took to the woods, but at noon, hunger compelled him to come in, and he was placed under arrest.

**ALBERTA'S POPULATION
ESTIMATED AT 539,000**

Finance Department at Ottawa Advises Premier Sifton of Estimate Arrived At.

This morning Premier Sifton received advice from the finance department of the dominion government at Ottawa that they had figured the population of this province at 539,000, and that the annual subsidy would be paid up to that basis.

The census also shows an increase of 14,000 since the census was taken a little over two years ago, and indicates a marked increase in the growth of the population of this province.

**TEN PERSONS ARE
DROWNED IN WAVE
SWEEPING CREEK**

Wall of Water Thirty Feet High Comes Without Warning in Texas Town.

**FIFTY HOUSES ALONG
BANKS WASHED AWAY**

Rise is Result of a Heavy Downpour of Rain of Four Hours' Duration.

Belton, Texas, Dec. 2.—Ten persons were reported to have perished in a 30-foot wave which came without warning down Nolan Creek before dawn today. The creek runs through the centre of the city.

Fifty houses along the banks in Belton were swept away. Mr. W. C. Folk and her four children were caught asleep in their home and drowned. Alice, carrying the child in her arms, was carried to high ground. Five fatalities, a man his wife and three children were reported in another family that of a camper. His name was not known here.

When the main street bridge in Temple, Texas, was demolished by the wave, an unidentified man was in the structure. He was seen to go in the water. It is believed he perished.

The creek's rise was the result of a heavy downpour of four hours duration.

**WILL AWAIT WORD
FROM THE DEPARTMENT**

Action For Possession of Homestead Stayed Until Minister is Heard From.

After hearing some of the evidence in the case of McKelvey vs. Mackenzie, Mr. Justice Walsh ordered a stay in the hearing of the case until word has been received from the department which will interview the minister of the interior.

WIDOW OF HERO SCOTT TO LIVE IN KING'S PALACE

London, Dec. 2.—That Lady Scott and her son, Peter, widow and child of the late Sir Robert Franklin Scott, the brave English explorer, who perished with his party after they had made a heroic dash across the Antarctic ice fields to the South Pole, will not be obliged to depend upon any private charity for subsistence in the action of King George. When his majesty learned of the poor circumstances of the plucky little widow and her child he immediately sent about

**SHOT DEAD IN PULLMAN
CAR BY A HIGHWAYMAN**

Travelling Passenger Agent Victim of Bandit Robbed on Southern Pacific.

Los Angeles, Cal., Dec. 2.—Horace B. Montague, travelling passenger agent for the Southern Pacific railroad, was shot and instantly killed by a bandit last night in a pullman car of the westbound Sunset Express, a few miles out of Los Angeles.

Boarding the train at Pomona, the man went through the rear pullman, compelling the passengers to drop their money and jewelry into a bag. As Montague stepped into the tale of the car the hold-up man grabbed him by the overcoat lapels, with the order "show up your hands."

Montague held a travelling bag in one hand, raised the other as to ward off a blow from the robber. The bandit then shot him through the forehead. A negro porter started to run, and a shot, which hit him. Before he met Montague, the bandit took about \$200 in cash and jewelry from the passengers and train crew.

As the train slowed down for a station, the robber jumped off and disappeared.

**CLARKE vs. COX IS
DISMISSED BY COURT**

Allegation Not Made in Sense Taken by Plaintiff—Each Party Pays His Costs.

The case of Joseph A. Clarke vs. Frederick W. Cox, was dismissed this morning by Mr. Justice Walsh in the supreme court.

The plaintiff, in his statement of claim, alleged that on December 7, 1912, the defendant, Mr. Cox, made a statement that injured his reputation and profession. In the Wallace school house, south side. The statement that the defendant is alleged to have been made was "Of my knowledge he is a forger." For this, Mr. Clarke brought a suit to recover \$25,000 damages.

The defence claimed that the statement was not made in the sense in which the plaintiff took it. After hearing both sides of the case, Mr. Justice Walsh dismissed the case without costs.

**WILSON INFORMS
CONGRESS HUERTA
RECIPE CRUMBLING**

Says United States Will Not Be Obligated to Alter Its Policy of Waiting.

**PRESIDENT SUGGESTS
NATIONAL PRIMARIES**

Would Have His Country Accept Essentially System He Gave New Jersey.

Washington, Dec. 2.—President Wilson read his first annual message to congress today at a joint session of both branches at 1 o'clock in the house chamber. The message, among the briefest of documents of its kind from any president, and some 3,000 words long, required less than 15 minutes for reading, though it treated upon a variety of subjects. The Mexican situation, President Wilson said, was the most serious and delicate of the problems before him. He expressed the belief that the Huerta government was crumbling and that the United States probably would not be obliged to alter its policy of waiting.

No program for trust legislation was presented, further than mention of the desirability of an early amendment to the Sherman law "to prevent private monopoly more effectively than it has yet been prevented" and an announcement that the president would later address a special message to congress dealing solely with that subject.

Building of Alaskan railways which the president endorsed; the need for some time ago and expressing the belief that the Huerta government was crumbling and that the United States probably would not be obliged to alter its policy of waiting.

One Cloud on Horizon.

The message opened with this comment on the Mexican situation: There is no certain prospect of peace in America until General Huerta has surrendered his usurped authority in Mexico, and until the government of the United States has been able to secure the recognition of his government. We are the friends of constitutional government in America. We are not friends of the Huerta government, because in the latter we see the danger to our own government. We are not friends of the Huerta government, because in the latter we see the danger to our own government.

The president observed that the power and prestige of the Huerta government was rapidly crumbling, and added: "We shall not, I believe be obliged to alter our policy of watchful waiting."

Mr. Wilson presented a suggestion that the legislature be requested to provide for primary elections throughout the country at which the voters should elect the primary and choose their nominees for the presidential election. The president suggested that the primary elections be held on the same day as the presidential election, and that the primary elections be held in the same manner as the presidential election.

The president suggested, moreover that the delegates consist of the nominees for congress, the nominees for the senate, the nominees for the house of representatives, and the nominees for the state legislatures. He suggested that the delegates be elected by the people, and that the delegates be elected in the same manner as the members of congress.

The president referred to the need of administering the Hawaiian Islands, and to the need of administering the Hawaiian Islands, and to the need of administering the Hawaiian Islands.

(Continued on Page Seven.)

**BRIGADIER-GEN. TASKER
H. BLISS.**

Brigadier-General Tasker H. Bliss, of the 26th U.S. Infantry, has been ordered to duty on the Mexican border. General Bliss is completing entering into with another company will be more valuable to us than the one along the lines of our first offer. We would also state that we are not offering to buy a gas franchise and would not expect the city to agree at present to ultimately buy more gas from us than the capacity of a 16-inch main at 15 cents per thousand feet at the point of delivery at the city limits to the gas field.

"We are not prepared to make our first offer to the city for no reason for so doing. We consider our knowledge and experience of natural gas fields our great asset, and we consider it our business to be able to supply the city with gas at a price which is fair to both parties."

**CANADA WINNER
CHAMPIONSHIP AT
GREAT STOCK SHOW**

J. D. McGregor and Manitoba Shine in the Light of Having Best Steer

**FED LIKE CATTLE ON
ANY WESTERN FARM**

Other Prizes Go to the Dominion at the Finest Exhibition on Earth.

Chicago, Ill., Dec. 2.—It's hush for J. D. McGregor and little old Manitoba. The agriculture college boys are at this moment selling their heads off in the big arena and every Western Canadian is shaking hands with every Eastern Canadian. J. D. McGregor, of Brandon, has pulled off the grand championship of the International Live Stock Show at Chicago, the biggest show of its kind on earth.

Glenbrook Victor H. has downed all comers in the steer classes and there were scores of them. He was first in his class as a grade yearling, then champion of all grades and cross breeders and then champion of all yearlings and finally grand champion over all pure breeds and grades. He was held by J. D. McGregor, his sire was Gold on Glean, and he is out of the same dam as last year's grand champion.

His grand dam was an ordinary red nurse cow. He has been on nothing but corn, hay and clover, and a very little bluestem. He would not know corn if he met it.

The greatest triumph of all was won by young Harry Bowman, a boy not yet 17, and who has no special training as a feeder but he has cared for this calf from birth. Mr. McGregor said that he would not allow him to be interfered with by any of his older and more experienced feeders. He was formerly with Dean Curtis of Iowa, but who joined the McGregors last year.

It is the first time in the history of the international that the sweetest grand championship of the show has been won twice in succession by an individual breeder since previously Ames College won two years in succession.

**NEW COSTE-FYSHE
GAS OFFER MADE
TO CITY FATHERS**

Proposition Agrees to Pay Expense of Submitting Question to People.

**DO NOT ASK TO BUY
EXCLUSIVE FRANCHISE**

Satisfied With Arrangement Such As Considered With Another Concern.

In a third letter to the mayor and members of the city council which will come up at the next meeting of its council, Messrs. Coste and Fyshe point out that they cannot see how any group of business men acting in the best interests of the city can ignore their offer, and further that they are prepared to pay the expense incurred by the city in submitting it to the people.

"Referring to our offer of November 24th, we state their letter, 'we feel we would not be logical if we did not consider that an exclusive contract similar to the one the city council are contemplating entering into with another company will be more valuable to us than the one along the lines of our first offer. We would also state that we are not offering to buy a gas franchise and would not expect the city to agree at present to ultimately buy more gas from us than the capacity of a 16-inch main at 15 cents per thousand feet at the point of delivery at the city limits to the gas field.'

"We are not prepared to make our first offer to the city for no reason for so doing. We consider our knowledge and experience of natural gas fields our great asset, and we consider it our business to be able to supply the city with gas at a price which is fair to both parties."

"Mr. Coste's outstanding record of success in the natural gas business should command our most consideration that has been shown and ensure that at least in fair competition we should receive an equal opportunity of demonstrating our good faith and ability."

"Our financial standing and our ability to carry out our undertakings can easily be ascertained, and in this connection we would state the fact that for the carrying out of our undertaking we have the funds already underwritten by private subscription."

"In our letter of November 24th we contemplated that the city would enter into other tentative agreements with the Federal Oil and Gas Company, Campbell trustees, and also might explore a field itself. We would again most emphatically state that we do not intend to enter into such competition provided the conditions governing each of the tentative agreements are such as to require the city to pay the cost of the first company to deliver gas to the city shall have the right to supply the city with either 5 or 10 per cent of its requirements. In this case we insist that in the event of any competitor not living up to the requirements of the tentative contracts as to the amount of work to be done in a certain specified time he shall forfeit his rights absolutely without any chance of extension of time."

"As a business proposition we would also insist on the city agreeing to take either a certain minimum quantity of gas, or having themselves or otherwise arranging to take a certain minimum number of miles of distributing mains in the city. We are prepared to spend a large amount of money in drilling and laying a pipe line to city as per our tentative offer of November 24th in a certain specified time, and we are prepared to spend a large amount of money in drilling and laying a pipe line to city as per our tentative offer of November 24th in a certain specified time, and we are prepared to spend a large amount of money in drilling and laying a pipe line to city as per our tentative offer of November 24th in a certain specified time."

"We cannot see how any group of business men acting in the best interest of the city can ignore this offer, and further that they are prepared to pay the expense incurred by the city in submitting it to the people."

No More Asthma A Cure Discovered That Really Does Cure

Thousands Testify to the Lasting Benefit Derived by the Marvellous Preparation.

The country is simply wild over the wonderful cures of chronic asthma that are being made every day by Catarrhism. It is a scientific surprise, a perfect marvel the way it brings old chronic back to health. You will say once, say so after the very first time. Ever since people first began to have Asthma, Catarrhism is certainly the best remedy discovered.

Creighton E. Thompson, well known in Calgary, writes: "Nothing too strong can be said for Catarrhism. I suffered four years from asthma in a way that would beggar description. I went through everything that man could suffer. I was told of Catarrhism by a clerk in Philby's drug store and I purchased a bottle of it. It was worth hundreds to me in a week, and I place a priceless value on the benefit I have since derived. I strongly urge every sufferer to use Catarrhism for Asthma, Bronchitis and Catarrh." The one-dollar package lasts two months; small size, 50c; sample size, 25c; all storeskeepers or druggists, or The Catarrhism Co., Buffalo, N. Y., and Kingston, Canada.

PREMIER BORDEN NOW IS TALKING RUSSIAN

He Learns Many Words in the Language from Attendants at the Hot Springs Baths.

Hot Springs, Va., Dec. 2.—It seems that Robert L. Borden, the Canadian premier, was spending a month at the Hot Springs, an opportunity to pick up a smattering of the Russian language.

He discovered on the first day that his bath attendant was a Russian, and began asking him for the equivalent of simple English words. At the end of the first treatment he had learned about 20.

To the surprise of the Russian he recited these perfectly upon his appearance next morning and asked for more. These lessons continued for half an hour daily for three weeks, while the baths were being given, and when Mr. Borden went up on Saturday to see President Wilson he could have greeted the Russian ambassador in his native tongue.

Mr. Borden is quoted as saying that in the same way he had picked up Japanese from a waiter and a little Chinese from a Chinese cook while travelling in the woods in the north of Canada.

\$29,000,000 DAMAGES ASKED FROM COMBINE

Fifteen Additional Suits Are Filed Against the American Sugar Refining Company.

New Orleans, Dec. 2.—With the filing of 15 additional suits yesterday in the United States district court, the American Sugar Refining company is made defendant in civil anti-trust prosecutions under the Sherman law for damages approximating \$29,000,000.

The suits were filed by Louisiana cane growers, sugar dealers and manufacturers who allege that the American Sugar Refining company is a monopoly and has manipulated the sugar market to the detriment and financial loss of the planters.

Damages aggregating \$17,500,000 are asked in the 15 suits filed today.

DIAMOND MARKET TO OPEN

Berlin, Dec. 2.—The Imperial channel for the sale of diamonds has been restricted to one million karats. The production in 1912 was approximately 4,400,000 karats.

Spending your winter at the world famous HOTEL DEL MONTE

Where it is Summer all the year. On the Bay of Monterey, 12 miles south of San Francisco via the Southern Pacific R.R.

The Golfer's Paradise A 200-acre golf course with hotel, club house and golf carts. Rates: \$5.00 PER DAY AND UP. Special Weekly Rates.

ONLY 5 MINUTES WALK UP TO THE GOLF COURSE.

You can enjoy the same privileges and play golf at the Hotel Del Monte.

PACIFIC GROVE HOTEL

Three miles from HOTEL DEL MONTE in the beautiful town of Pacific Grove.

Enjoy the same privileges as at the Hotel Del Monte.

RATES: \$3.00, \$3.50, \$4.00, \$4.50.

Both Hotels on the American Plan only under the management of H. W. HARRIS.

Write for leaflet illustrating hotels giving full particulars.

TIGHTNESS OF MONEY IS EXPLAINED

Unprecedented feeding of Capital to World's New Countries Blamed.

INCREASE IN ARMAMENTS COUNTED ANOTHER CAUSE.

Result Old Friends Must Wait Hence Embarrassment and Trade Reaction.

London, Dec. 2.—The Daily Chronicle, under the title "The Tightness of Money," discusses this morning the reasons for the present "tightness of money," pointing out that the present situation is serious for the financier whose profits are dwindling, for the contractor whose work is being delayed, for the manufacturer short of orders in a tight money market, while governments are always pushing their expenditures millions beyond their income.

The world shortage of capital is not surprising in view of the course of finance in the last decade, when the growth of private extravagance has been enormous. However, the root cause of the situation is the simultaneous and unprecedented feeding of capital to the new countries, and at the same time the feeding of the armament contractors. During the last five years \$10,000,000,000 of new capital has been raised in England and Canada.

The Chronicle continues: "In some directions we have been too free with our capital. We have been lending money, not only to the new countries, but to the armament contractors. During the last five years \$10,000,000,000 of new capital has been raised in England and Canada.

"The Chronicle continues: "In some directions we have been too free with our capital. We have been lending money, not only to the new countries, but to the armament contractors. During the last five years \$10,000,000,000 of new capital has been raised in England and Canada.

THE DEPENDENT OF THE LIVER

So important is the liver and so great its influence on the other organs of the body that it may be said you have little to fear from the ordinary life of life so long as the liver is in healthy condition.

The digestive processes are so dependent on free action of the liver that any derangement of this organ soon brings trouble.

Indigestion and constipation follow, headache and depressed spirits. Additional work is thrown on the kidneys, and soon the whole eliminating system is strained and the blood carries poisons through the body. Careful eating is a great help towards securing the liver right, but when it does get wrong there is nothing like Dr. Chase's Kidney-Liver Pills to restore the liver to its normal condition.

With the secretion of bile for the liver, constipation and indigestion are removed, and the digestive and excretory systems are set in order. It is wonderful the benefit obtained by a few doses of Dr. Chase's Kidney-Liver Pills under these circumstances. A trial will convince you of their superior merit.

UNITED STATES INTERESTED IN HINDU PROBLEM

American Commissioner General of Immigration Visits Premier McBride, A MENACING ASPECT.

Early Attention Will Be Given to Subject Result of Recent Court Rulings.

Vancouver, Dec. 2.—Although he ostensibly is only here on a general inspection trip Commissioner General of Immigration, J. H. McNeill, is in the city for several hours this morning according to advices from Victoria, making arrangements for a conference with Sir Richard McBride on the Hindu problem, in the light of the recent ruling of Chief Justice Hughes, now assumed a "most serious" and menacing aspect.

Mr. McNeill arrived from the south last night and is understood to have immediately set the wires in motion with a view to a conference with the provincial and federal authorities on the immigration question as affirmed by the recent judgment. He is now making an investigation of other local conditions on behalf of his government. Local immigration affairs have been a subject of attention during the past few months by United States authorities. The close proximity of Vancouver to the international border creating number of problems of vital interest to the United States.

Sir Richard McBride says the British Columbia government will give early attention to the Hindu question, which has been a subject of the decision of Chief Justice Hughes.

Great Effect in India.

London, Dec. 2.—The Marquis of Crevecoeur, secretary of state for India, replying to a question of Hindus in reference to the Hindus in South Africa, where the Hindu community is being ill-treated in the mines associated with the local hardihood, victory of India, in bringing the inadvisability of the decision of Chief Justice Hughes.

He said he did not believe a poll tax on Hindus entering South Africa serves any useful purpose. In South Africa, the Hindu immigration problem is looked upon as a purely domestic question, and any interference by the imperial authorities will be resented. The attitude of the Marquis adds up the gravity of the situation and if Great Britain makes any concrete demands for the Hindus, it will be resented.

Lord Hardinge's championship of the Hindus in South Africa has a great effect in India, where according to an eminent Hindu it "has transformed indignation and resentment into hopefulness and trust."

"Danger has been averted," he continued, "and confidence restored. The Hindus have saved their honor from the clutches of scheming extremists."

QUEEN ALEXANDRA SIXTY-NINE.

London, Dec. 2.—The sixty-ninth birthday of Queen Alexandra, who officially celebrated her birthday yesterday in London and Ireland (where the recognition was spontaneous), her husband's birthday, the last of the empire, took on a more personal aspect when the queen, accompanied by the king, arrived at Sandringham, the home to which the queen has retired since her husband's death, which was her home during King Edward's life, and the home to which she will always be a family reunion at which the king and queen and the children of their family were present.

NOME ARISES FROM DEBRIS.

Vancouver, Dec. 2.—Nome, Alaska, storm swept as never the coast was devastated before, has arisen again and has taken on the air of a busy mining camp, is the statement of Mr. Paul McNeill, one of the most prominent residents of that city who arrived here today.

When replying to advertisements please mention the Daily Capital.

"CASCARETS" FOR COSTIVE BOWELS

Headache, sour stomach, biliousness and bad taste gone by morning.

Get a 10-cent box now.

Purged Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches, sour stomach, biliousness and bad taste, which cause your stomach to become filled with undigested food, which soon forms into clotted garbage in a still barrel. That's the first step to untold misery—indigestion, sour stomach, biliousness, head, mental fears, everything that is horrible and nauseating. A Cascaret will give your constipated bowels a thorough cleansing and straighten you out by morning. They will give you a good feeling, good for months. Millions of men and women take a Cascaret every day to keep their stomach, liver and bowels regulated, and never know a miserable moment. They forest the children—their little minds need a good, gentle cleansing, too.

MANITOBA LEGISLATURE TO MEET DECEMBER 11

Order-in-Council Passed Summary Members for Transaction of Business.

Winnipeg, Man., Dec. 2.—At a meeting of the provincial cabinet, held this morning, a resolution was passed calling the legislature of the province of Manitoba together for the despatch of business on December 11, at the hour of 3 o'clock in the afternoon. A special session of the Manitoba legislature, consisting of this announcement was made today.

EXTRAORDINARY INTEREST SHOWN IN PEACE OVER CR.

Messrs. Cox & Murdoch Sell Many Lots in Registered Townsite.

If the interest manifested yesterday and today in the public sale of lots in the registered townsite of Peace River Crossing is any criterion, it is evident that the public in general regard the Crossing as the coming great commercial centre of the vast Peace River territory.

The Registered townsite comprises River Lot 9, which abuts the property of the Edmonton, Dunvegan and Northern Railway on the North and South.

The situation of River Lot 9, which is being sold by Messrs. Cox & Murdoch, 200 C.P.R. lots, is unique in so far as it is the one property in the townsite surrounded by registered townsite.

Terms of sale \$250 and up. These prices were to the public a good investment, more especially when it is considered that prices prevailing in properties in close proximity amount over four times as much.

The Public Sale of Lots closes on Wednesday, December 3rd, at 8 p.m., and we are informed by Messrs. Cox & Murdoch that prices will be advanced immediately after.

EVIDENCE IN RATE HEARING IS ALL IN

Arguments Will Be Begun on Thursday and Case May Be Closed This Week.

Ottawa, Dec. 2.—At 4 o'clock yesterday afternoon Mr. James Dickson, K.C., chief counsel for the Dominion government in the western rates inquiry, formally closed the case in so far as production of evidence was concerned. Then followed a discussion as to when argument should be commenced. The decision was reached that the lawyers would be allowed two days to prepare their arguments. When the case is resumed on Thursday morning Mr. Dickson will address the board. He will be followed by counsel for the provinces and the Winnipeg board of trade, the legal representatives of the railways to be heard last. Then all will have the right to make closing summings-up remarks.

Chairman Drayton intimated that it was his desire to close the case this evening if it was necessary to hold evening and Saturday sittings. In closing the case for the government Mr. Dickson stated that while it would no doubt be possible to submit additional figures, he doubted if they would be of sufficient value to justify another adjournment of the case. The board, he contended, had sufficient facts on which to proceed; if more were required later on they could be asked for. "Now for the arguments," he said. When will you be ready to proceed?" asked Chairman Drayton. Mr. Dickson replied that the government counsel should have at least two days in which to prepare. With proper preparation, he contended, the government matter might be eliminated, which would shorten the proceedings. Mr. Dickson stated that he would not be able to start on Thursday morning. The chairman agreed to a two days' adjournment, and then wanted to know who would start off first.

Mr. Dickson claimed the right to be heard first.

Positor: Is Peculiar.

BORDEN'S BAKING POWDER

Pure—Wholesome—Reliable—Indispensable

Its fame is world-wide. Its superiority unquestioned. Its use is a protection against alum food. In buying baking powder examine the label carefully and be sure the powder is made from cream of tartar. Other kinds do not make the food healthful.

RECRUITS UNDER PLEDGE TO TAKE UP ARMS WHEN ULSSTER GIVES THE CALL

Agents in Minneapolis Are Trying to Enroll Five Thousand Fighters in Minnesota—Work Has Been Going There for Weeks Is the Declaration Made.

Minneapolis, Dec. 2.—Secret enlistment of volunteers for the Ulster movement has been going on in Minneapolis for weeks, according to a local Ulster man. The enlisting officers, who in the city are said to have come from Winnipeg, through headquarters in Minneapolis, it is said, they have been called first to Dublin Castle and then to Pall Mall for allowing civilians who were present at his officers' mess as the guests of the officers to join and to drink the health of Mr. Bonar Law and Sir Edward Carson.

It is a political demonstration is so utterly at odds with military orders, that it seems difficult to understand what explanation the C. E. can give.

Plies Cured in 6 to 14 Days. Druggists refund money if PAIN EXISTED. First, bleeding or protruding piles. Third, application gives relief.

THE COMMON SENSE VIEW

TO WHICH ALBERTA SUBSCRIBES.

With the unanimous consent of both parties the legislature of Saskatchewan has abolished the system of bonusing industries by municipalities in that province. Not only does the bill prohibit the granting of money bonuses, but it makes it illegal for a municipality to grant free sites, exemption in whole or in part from taxation, the guaranteeing of bonds or the subscription to stock by the municipality.

The opinion expressed by the members of the legislature upon the motion, which was introduced by Hon. George Langley, the former member of the Saskatchewan legislature, was that any industry which was not able to stand upon its own foundation without state or municipal assistance was a parasitical institution lacking in the elements of success at the commencement, and therefore more likely to be a burden than an advantage to the municipality in which it was placed.

This is the common-sense view, and one to which Alberta has already subscribed. Saskatchewan is to be congratulated upon having reached the same conclusion.

THE AUTOMATIC IN EDMONTON AND LONDON.

After exhaustive enquiry British Postmaster-General Samuel has decided to introduce the automatic telephone in Great Britain, and has set aside half a million dollars to commence the work.

In view of the fact that Edmonton has been using the automatic successfully for the past five years, and that the Alberta government has probably the most modern automatic equipment in the world in Calgary, the item is interesting. Quite possibly a part of his exhaustive enquiry which convinced him of the efficiency of the automatic was when, coming from the centre of civilization in London, he had an opportunity right here on the edge of the frontier to give the automatic a practical test by ringing up a number on the Edmonton system.

In many respects Edmonton is the most advanced city in the world. In the matter of the telephone it leads the whole of Britain by half a decade.

CANADA'S SITUATION ON FREE WHEAT.

Of the two hundred million bushels of wheat grown in Canada, Saskatchewan alone produces one hundred million, and at the present rate of increase the sister province will alone in five years be producing wheat enough to meet the total demands of the British Isles. Alberta's possibilities, virtually, have not been scratched.

The United States wheat production of approximately six hundred and fifty million bushels has remained stationary for twenty years, and at the present rate of increase in population the republic to the south will be importing wheat in less than five years.

Anyone who has any doubt as to whether Canada should take advantage of the Wilson tariff provision which permits Canada to secure free entry for her wheat into United States need only look at these figures for reassurance.

THE PARTY LEADERS ON THE COST OF LIVING.

At a banquet given in his honor in Hamilton on the 26th of November, Sir Wilfrid Laurier declared that the problem of making ends meet in the home was the great problem of Canada today.

In Washington on the 28th of November Premier Borden discussed with members of the United States government the question of the high cost of living.

Both party leaders, evidently, are of opinion that a solution is demanded to the situation which has taken all the luxuries and threatens to take some of the things usually counted necessities from the family table.

As the liberal solution Sir Wilfrid Laurier advocates the total abolition of the tariff on food.

Premier R. L. Borden offers no solution, and as an opponent of reciprocity is opposed to the abolition of the tariff on food.

IMPRISONMENT FOR POVERTY.

Governor rFoss, of Massachusetts, says there are 10,000 people sent to jail every year in the Bay State because of poverty. The conditions there are not unusual. Thousands are being imprisoned every day throughout the country because they are unable to pay fines imposed. It is idle to suppose that a fine of \$10 or ten days means to an automobile speeder with a pocket filled with money the same thing it does to a poverty-stricken victim of strong drink. A sentence of ten days in jail would come more nearly meaning the same to both offenders. At least such punishment would mean something to each. A fine of a few dollars is a farce to the well-to-do and a real tragedy to the poor, yet our laws are supposed to be framed to administer justice equally.

THE LAW CONCERNING SEDITION IN CANADA.

A request has been received in Ulster, so the despatches say, for an officer to inspect the units of anti-home rule volunteers in Winnipeg and Toronto.

Just so as to make the matter perfectly plain, it is worthy of mention that any such officer or any volunteers enrolling in Winnipeg or Toronto or any other Canadian city for service in a rebel army in Ulster or anywhere else in the empire are indictable under the sedition law, and the penalty is a term in penitentiary of sufficient length that the expiration of the term would be subsequent to a date when not only Ireland but England, Scotland and Wales had been enjoying autonomy for some considerable period.

Two Doctors Said He Had Consumption.

DR. WOOD'S NORWAY PINE SYRUP CURED HIM.

Mrs. John EMM, St. John's, West. Ont., writes:—"My little boy was very bad with whooping cough and severe cold. I went to two doctors with him, and they said he had Consumption. I could get no relief for him with a dry hacking cough. It was not until I saw Dr. Wood's Norway Pine Syrup, and was surprised to see the first bottle did him good. I have had four bottles, and they cured him. He rests well at night now, and is well and hearty. If he gets a cold we always give him Pine Syrup and he is cured. I do not think I could raise him, but I am thankful to say Dr. Wood's Norway Pine Syrup saved him from being a consumptive."

"Too much stress cannot be laid upon the recommendation to all persons affected by the earlier stages of throat and lung trouble, as failure to take hold at once will cause many years of suffering, and in the end that terrible scourge 'Consumption'."

Dr. Wood's Norway Pine Syrup is without an equal for all affections of the Throat and Lungs. Price, 25 and 50 cents. Manufactured only by The T. M. Burns Co., Limited, Toronto, Ont.

CORRESPONDENCE

COMMISSIONER GOVERNMENT.

The Editor, Edmonton Daily Capital, Edmonton, Alta.
Dear Sir,—Having heard so frequently the persistent rumor that Mr. Short, if elected as mayor, would not consider submitting a plebiscite to the people of this city on the question of adopting the automatic system of government, I am writing you to inform you that I am a supporter of the initiative, referendum and recall, and at the present time believing in that form of government, I would like to see a letter from you stating whether or not you would support such a plebiscite to the people of this city.

In my letter I stated that I believe that public meetings should be held before the plebiscite should be taken, and that I am in favor of the decision of the subject, for it seems to me that if we would secure a better city administration by changing the form of government, or by any other legitimate means, we should, as taxpayers, have the opportunity to pronounce upon it. Please's suggestion.

"For forms of government, let fools contest: That which is best administered is best," may be entirely true, but as one of the foolish ones, I should like to see the question submitted.

Mr. Short's letter, of which I am sending a copy to the other newspapers as well, follows, and it appears to be a characteristically good letter, one that upon the strength of which I, for one, shall give him my support at the forthcoming city election.

If you could give this letter space in your valuable columns, I should very much appreciate it.—Yours sincerely,

A. L. MARKS.

Edmonton, Alta., Nov. 27, 1913.

A. L. Marks, Esq.,
Barister, Edmonton South.

No Effective Commission Form of Government.

Dear Sir,—Your favor of the 26th just received. To say that I am opposed to submitting a plebiscite to the taxpayers on this question is absolutely contrary to the truth. I am convinced that in no way will the question of good government for Edmonton receive a greater impetus than by having this matter thoroughly discussed with all with a view to the taking of a plebiscite to the citizens. The question is a big one. It has been brought up within the last two or three months, and it is, so far as I am aware, being made very largely a political question. To my mind it is not in the interests of the city of Edmonton, or its good government, that the matter should be made a political question. It should be discussed fully and freely in the light of the very best information that can be received. It is a much larger question than a good government to think I am one of those who would have to decide when the matter would be disposed of. I would suggest that it be disposed of as soon as would be reasonably possible, but I would not attempt to fix a date. It might be one or two months, and that would be far enough to say, but whatever they say, so far as I am concerned, I want the matter to be fully discussed first. Yours truly,

(Signed) Wm. Short, Mayor.

TODAY IN DOMINION HISTORY.

Richard Montgomery, the distinguished military officer who fought with and against Great Britain in Canada, was born near Dublin, Ireland, 1772 years ago today. After leaving Trinity College, Dublin, he obtained a commission in the British army. He was still a youth when he received his baptism of fire with Wolfe at the siege of Quebec. He gave evidence of high military capacity and won the approval of his commander. After the surrender of the French stronghold, his regiment formed a part of Amherst's forces sent to reduce the French forts on Lake Champlain. Montgomery became adjutant of his regiment in 1759, an ensign under General Haldane in his march upon Montreal when the city was surrendered. In 1772 he sold his commission and bought an estate in New York. At the outbreak of the revolution he took sides with the rebellious colonists, and was made one of the eight British generals. He became acting commander-in-chief of the northern department, owing to the illness of his superior, Schuyler, and headed the army that invaded Canada. He took Montreal and then Quebec, where he joined the troops of Benedict Arnold. He received the news the last day of December, 1775, when he attempted to take the city by storm, meeting the unexpected charge of a regiment from a masked battery put an end to the career of the gallant Irishman. His death was mourned in England as well as in America, and on the floor of the British Parliament he was eulogized by Burke, Chatham and Barré, while Lord North spoke of him as brave, humane, and generous rebel. Montgomery was buried in Quebec, but in 1814 his remains were reburied in New York.

TODAY WE CELEBRATE

Accession of Franz Josef

It was 62 years ago today that Franz Josef was proclaimed Emperor of Austria, and the anniversary will be widely celebrated by Austria at home and abroad. The memorable reign of Queen Victoria, extending over a period of 63 years, some months and two days, has been eclipsed by the memorable reign of Austria and Austria, King of Hungary. Few monarchs of either ancient or modern times have reigned so long. Franz Josef was a youth of 18 when he ascended the throne of Austria. In the abdication of his uncle, Ferdinand I, was not until 1867 that he took the oath to support the Hungarian constitution and was crowned King of Hungary. The young emperor came to the throne during a troubled period in the history of Europe. At that time the spirit of revolution, and republicanism, socialism and anarchism were being preached in the heart and liver of human beings. The first king died in 1819, and the first king of his son and successor, King Leopold II, was to abolish cannibalism, take and industry in all of the islands. Christian missionaries were welcomed, and the rebels who rose in defiance of the ancient faith were defeated in battle. Five years after his accession the King, with his spouse, visited England, and both died there of the measles. Under the second, third, fourth and fifth monarchs of the Austro-Hungarian empire the rule rather than the exception, although many men continued to practice polygamy, and many women had several husbands. When the missionaries first visited the islands, female virtue was a thing that dreamed of, and there was no native west for it.

Both France and England made attempts to annex Hawaii, but in 1841 these two countries joined with the United States in guaranteeing the independence of the country. A constitution was granted in 1840. King Kamehameha II, who was annexation to the United States, but the movement ended with his death. The fourth of the royal line married Miss Emma, a native Hawaiian. After the death of her husband in 1862, Queen Emma visited England, and was received by Queen Victoria. Kamehameha V never married, and his death in 1872 the old royal line came to an end. William C. Lunalilo was chosen as his successor, but he died a year after his coronation. Queen Emma sought to have the reign of government, but she was doomed to disappointment, and David Kalanika was elected to the throne. He visited the United States in 1879, and concluded a reciprocity treaty. In 1891 he was made king by the war, and received with such pomp and circumstance that his royal head was quite torn. On his return he built a palace costing

him \$100,000 and ran his country into debt, and was succeeded by his son, Liliuokalani, who sat upon the throne for two years and was then deposed, and a republic established. After her deposal she came to America, and in 1893 she was granted citizenship to avoid her indignity for her vanishing crown.

Kamehameha V never married, and his death in 1872 the old royal line came to an end. William C. Lunalilo was chosen as his successor, but he died a year after his coronation. Queen Emma sought to have the reign of government, but she was doomed to disappointment, and David Kalanika was elected to the throne. He visited the United States in 1879, and concluded a reciprocity treaty. In 1891 he was made king by the war, and received with such pomp and circumstance that his royal head was quite torn. On his return he built a palace costing

him \$100,000 and ran his country into debt, and was succeeded by his son, Liliuokalani, who sat upon the throne for two years and was then deposed, and a republic established. After her deposal she came to America, and in 1893 she was granted citizenship to avoid her indignity for her vanishing crown.

Christian missionaries were welcomed, and the rebels who rose in defiance of the ancient faith were defeated in battle. Five years after his accession the King, with his spouse, visited England, and both died there of the measles. Under the second, third, fourth and fifth monarchs of the Austro-Hungarian empire the rule rather than the exception, although many men continued to practice polygamy, and many women had several husbands. When the missionaries first visited the islands, female virtue was a thing that dreamed of, and there was no native west for it.

Both France and England made attempts to annex Hawaii, but in 1841 these two countries joined with the United States in guaranteeing the independence of the country. A constitution was granted in 1840. King Kamehameha II, who was annexation to the United States, but the movement ended with his death. The fourth of the royal line married Miss Emma, a native Hawaiian. After the death of her husband in 1862, Queen Emma visited England, and was received by Queen Victoria. ANKS-M'DONALD
BOUT A FAST ONE

of Neatest Exhibitions of Boxing Ever Seen in City

Given at Moose Hall.

Members of the Moose Lodge last night gave one of the most enjoyable dinners both from a social and entertainment standpoint that has yet been given by the popular order since their organization in this city. The amusement given by the large crowd present was most varied and pleasant character. Several exhibitions of the many talents were given for the benefit of the members of the game, in which Eddie

was boxed Percy McDonald a six round exhibition bout, which was one of the fastest and neatest ever given in the city. T. McOrlary, Irish ex-weight champion of the British Empire, took up Kid Temple of Edmonton in another six round affair, while rounds of solid amusement were provided the fans when T. Yulish and Harwood mixed things for the benefit of the spectators.

A clever exhibition in rope throwing was exhibited by George Walsh, who

of that stunt at the big Calgary rodeo held early last fall. Joe Leaton of Lancashire, and Tom Daly, vocalist gave lovers of the voice a treat in their respective characteristic singing. At the finish every declared the Royal Order of 2 to be the best of entertainers.

world, defeated Henry St. Ives, the runner, in a 10-mile race at Glace last night. The Englishman led all day, and never had any trouble keep ahead of the Frenchman. The time 1:01.
